

INVISIBLE AIRSHIP IS PATENTED

ANTI-SALOONISTS HOLD ANNUAL GATHERING

Peculiar Construction of Aeroplane Makes It Impossible of Sight at Small Distance; Epidemic of Infantile Paralysis.

London, Oct. 19.—The British patent office has granted a patent for an "invisibility airship" which its inventor, Baron Adam Bowie, an aeronaut and naval engineer, claims will be invisible. Through the airship, the Baron says, is to be of enormous size, at a height of 1,500 feet it will be detected with the greatest difficulty and at a height of 3,000 feet it will be invisible, just, with modern engines, no noise will give one of its appendages.

The main principle upon which the invention is based is the absorption of light and shade. The envelope is to be made of aluminum, a metal possessing a highly polished surface, which is perfectly retained by a covering of transparent varnish. The surface or sides of the envelope, being like a mirror, will reflect the same color, bright or dark, according to the weather, as its environment, and thus be invisible. The officials of the Greenwich Royal Observatory have declared that the idea is thoroughly scientific and practicable.

The local government board authorities have been investigating an epidemic of infantile paralysis which has prevalent in Cornwall and Devon for several months, and their report soon is expected to throw some light on the causes and sets of this disease, which has been prevalent in America in different times. A medical man said that it was thought that the outbreak was due to an unscientific meeting or sparrow fever, which has caused many deaths throughout England. This medical man hazards the suggestion that the report of Dr. H. J. Rees, who has been carrying on the investigation, will establish a close relationship, if not the identity, of sparrow fever and infantile paralysis. Since the epidemic in New York in 1908, it has been suspected that the cases of infantile paralysis in this country have been caused by a germ, and the medical men say the evidence in Cornish and Devon has proved the germ theory.

You and your husband celebrate your silver wedding next week, do you?

Next Wednesday—Does it seem possible that you have lived together 25 years?

I should say it didn't. Harry's a traveling man or a whirling queen-of-war house and we've lived together just 7 years, 11 months and 19 days—Chicago Tribune.

It's a sign you're wearing good shoes when you're wearing the FOR-BUSH kind.

Dress the foot in that shapely fashion confined exclusively to our shoes—combining good looks with perfect comfort.

ANTI-SALOONISTS HOLD ANNUAL GATHERING

Reports Show Organization in Flourishing Condition; Several Local People Chosen as Directors.

The board of trustees of the New Mexico Anti-Saloon League met Tuesday, October 16, 1911, at the First Methodist church of Albuquerque, to transact its regular business. The meeting was unanimous and enthusiastic, and it was decided to push the work of the league in its three departments of agitation, legislation and enforcement, more vigorously than ever before. There are seventeen trustees representing the different denominations and temperance organizations, a majority of whom were present.

The trustees are: Rev. S. Alonso Belaga, D. D.; Rev. C. O. Beckmann, D. D., and W. G. Ogle, Esq., of the Methodist church; Rev. J. H. Goodwin, D. E. L. Young, D. D., and S. M. Williams, Esq., Methodist youth; Rev. F. P. Grim, D. D., and Rev. H. P. Williams, D. D., Christian; Rev. S. Merrill, D. D., Rev. J. Morris, and Rev. J. R. Parker, D. D., Presbyterian; Rev. J. H. Head, D. D., Congregational; Rev. M. Harwood, Spanish Methodist; Mrs. K. B. Patterson, W. C. T. U.; Rev. J. C. Courtney, and J. H. Wasson, Evangelical; Rev. A. L. Atchick, Baptist; and

Dr. S. A. Bright presided in a very able and impartial manner. W. G. Ogle was appointed secretary; it is possible he has officiated for some years. The minutes of the previous meeting were read and, with some corrections, were approved.

The report of the superintendent was read and approved unanimously. The report gave a comprehensive history of the work activities in all departments of the league's work. The minute of the previous meeting were read and, with some corrections, were approved.

"THE JOY RIDE PARTY" WITH DAVE LEWIS IN "DON'T LIE TO YOUR WIFE" ELKS' THEATER TONIGHT

A WONDERFUL LEGAL LIGHT

IS JUDGE WILLIAM R. MCGLL

AMONG the many celebrities mentioned by the Democratic leaders on the Santa Fe stage appears the name of Hon. Judge William R. McGill, the man who declared solemnly before the House committee on territories that every citizen in the New Mexico delegation had a joker in it.

Judge McGill lives at La Jolla, San Diego, Calif., and since his appointment to the bench in 1904, Judge McGill has had just one case, a legal action against the state of New Mexico, in which he has not won his case.

But it should not be thought that the judge has had but one case.

In the six judicial districts where the eminent Justice presided, he records show that since the judge was appointed in 1904, Judge McGill has had just one case, a legal action against the state of New Mexico, in which he has not won his case.

But it should not be thought that the judge has had but one case. In the six judicial districts where the eminent Justice presided, he records show that since the judge was appointed in 1904, Judge McGill has had just one case, a legal action against the state of New Mexico, in which he has not won his case.

The judge was fortunate with some life cases, however, but that is to be expected in one just entering upon a profession of the law.

His first case over the 14th district was unfortunately abandoned before it got anywhere. It seems apparent that the court can not have jurisdiction and the eminent Justice having failed apparently to take that into consideration before he entered upon that branch of the law.

He blamed his bad luck, we again find the judge in court on a later date and again the fares were against him for the eminent Justice held that the eminent Justice had not stated facts in his complaint sufficient to constitute a cause of action and the action was dismissed with Judge McGill's offer—the plaintiff, it is added, but firmly requested to put the case.

This also happened in the next case the judge put over in case district except that on this occasion the judge succeeded in getting the complaint filed long enough to get it into court when a defendant filed the plaint—the plaintiff was ordered to put the case.

Another effort, we find in searching the judge's legal record pleaded guilty—possibly preferring to do so in preference to pleading guilty.

Another case, we find, where the judge was counsel for the defendant and the territory the prosecutor, the defendant was found guilty.

Summing up, as the judge might say, we find that the eminent Justice had bad luck with his first eight cases over in that district, and he still has one case pending, leaving a couple of cases in which the judge pulled through, although it must be admitted they were not of such extreme importance that they carried with them extremely large fees. In one of them, it is true, the judge was assisted by other counsel and we believe the judge did not need assistance and that he could have made it straight alone.

If the judge's practice has extended extensively to other districts in New Mexico, the fact has not come to light but there is no doubt whatever that Judge McGill has genuine legal talents. He was not on the lawless slate for attorney general. He wanted to go to Congress. In fact the judge was not on the slate at all until he got himself in over the deal and the man nominated for attorney general had to be pulled off and the judge put on to "fix him up."

It is probably true that Judge McGill would have furnished better in Congress than men of stature like Henry D. Flood and some other distinguished patriots are consistently seeking the sort of legal advice that Judge McGill can so ably bring into play on occasion, but his rate was not so shaped and Dan Felix out McGill on the humbler office of attorney general.

There exists some doubt in the minds of many of the able attorneys of New Mexico and some of the plebeian throng as well, that probably Judge McGill could not fill the office of attorney general at this time, with his limited legal services and his inexperience in the ways of the students of Blackstone.

This, however, is probably a real fact that is founded too much on inaccurate information. Should anyone desire to gain reliable and honest information on the eminent statesman from La Jolla they are respectfully referred to the legal ability and great oratorical effort put forth in the judge when he appeared before the House committee on territories. If in there the judge strikes his real gait, it is there the judge shows the fellow citizens of New Mexico what manner of legal brains he has. Get the report of that hearings—probably the judge could furnish you with them—and learn for yourself, first hand, the kind of a citizen and lawyer that seeks the mediocre position of mere attorney general in New Mexico—more likely because Dan Felix put him on the slate at the Santa Fe convention.

The following were elected at headquarters committee: Rev. C. O. Beckmann, D. D.; Rev. H. P. Williams, D. D.; Rev. H. S. Chamberlain, D. D.; Rev. H. P. Williams, D. D.; Rev. S. L. Heron, M. D.; Rev. W. S. Overholser, D. D.; Rev. A. L. Autchick, Rev. J. C. Goncalves.

To this committee is given the charge of directing the work during the year, under the general directions of the trustees when most annually the committee meets quarterly or oftener at the call of the superintendent, who is the chief executive officer.

This committee with the superintendent is instructed by the trustees to form an advisory board of 25 members in different parts of the state as according to the needs of the work to further strengthen the work and organization.

For the ensuing year the following officers of the board of trustees were elected: President, J. H. Head, D. D.; first vice president, S. M. Williams, Esq.; Russell, second vice president, Rev. J. W. Connelly; Methodist; third vice president, Rev. J. R. Parker, D. D.; fourth vice president, W. G. Ogle, Esq.; Elks' Las Vegas; treasurer, Rev. H. P. Williams, D. D.; Albuquerque Rev. J. L. Seider, A. M., was unanimously reelected superintendent for the ensuing year.

As delegate to the National convention of the Anti-Saloon League to be held at Washington, D. C., the following were elected: Rev. J. L. Seider, W. G. Ogle, Dr. J. B. Goss, Dr. S. A. Bright, and Dr. J. H. Head. All members of the national board of trustees: Rev. J. L. Seider and Hon. Pitt Ross were elected. It was unanimously voted that the superintendent spend a month in the east raising funds to forward the work among the Spanish-American people.

Resolutions were passed commanding the work of the superintendent and headquarters committee co-operating church and faithful law enforcement officers, and pledging further united support depending for an effective local option law, including the county as a unit and with smaller units and with effective provisions for its enforcement. The resolutions further recommended that all churches, temperance organizations and individuals unite, regard-

OKLAHOMA FINDS MANY SCHOOLS A BURDEN

Governor In Interview States That He Wants Number of Higher Education Institutions Materially Reduced.

Oklahoma City, Okla., Oct. 19.—According to a statement made to an Associated Press reporter here, the state's higher education institutions are so numerous that each is making a great mistake when it attempts to expand. Bisbee, Ariz., has a large population, but the state does not have enough schools to accommodate it, so the legislature has passed a bill to reduce the number of schools, but the governor wants to see the number reduced still further.

It should be given a chance to consider the system of higher education. We should establish six normal schools, two university preparatory schools and six district agricultural schools. No other state in the union with a population as small as ours can afford to have so many educational institutions that are supposed to be doing little educational work. The people are returning to a simpler taxation that is becoming larger year by year, and with no hope of relief unless the budget takes hold and cuts these matters to the right size.

Certain four of the normal schools of the preparatory schools and some of the district agricultural schools should be discontinued. This would save the people to see the number of appropriations for educational purposes, than \$2,000,000 a year, that is being appropriated to these four. I have no hope that the legislature would ever be passed on the legislature because, whether passed or not, it would not be effective, those other institutions are so scattered that we could not make any improvements among those remaining.

There is one case in which the people could very profitably do something to the educational interests of the state, that is to see that the legislature would not be passed on the legislature because, whether passed or not, it would not be effective, those other institutions are so scattered that we could not make any improvements among those remaining.

It is to the credit of the legislature that it has not been passed on the legislature because, whether passed or not, it would not be effective, those other institutions are so scattered that we could not make any improvements among those remaining.
